

# A Review of the Marine Hut at QEII Park with the ramp installed

From a demolition job in Raumati to a rebuild at Menzhed, and then installation at QEII Park. Quite a transformation.

Action at Raumati

The three wise men wondering what to do next.

A history lesson for a local school who were completing a project on the US Army camp

Gradually it was rebuilt

and roofed

Then the foundations were prepared at QE II Park

When the hut was transferred and completed to the original design ready for the 75<sup>th</sup> Anniversary of the establishment of the Camp in May 2017.

Earlier this year the team who did the rebuild disappeared to QE II Park to complete the ramp which enables visitors to the site to see what life in the Camp was like.

A superb job by the Rebuild team and this is much appreciated by the Trust managing the exhibition on site. This is been complemented by the Trust who recreated the scenes depicted inside the Hut. What is inside is explained by the story boards outside the hut as shown below.
